RELIABLE PROTECTION MEETS ENHANCED COMPLIANCE WITH THE ENDURANCE SERIES

Fire-Lite's ES-XP Series offers a complete turn-key fire safety solution by combining the dependable ES series of addressable FACPs with a built-in dual path (IP/cellular), dual SIM (AT&T/Verizon) and dual listed (UL/ETL) 5G LTE-M communicator.

- Reduced installation and labor costs with all-in-one solution
- Increases reliability and peace of mind with built-in dual path cellular and IP communication options
- Offers up to 40 seconds faster alarm delivery to the central station vs. dialer capture or legacy POTS communication methods
- Complete line of site monitoring and automated test and inspection reporting through Honeywell's Connected Life Safety Services (CLSS) cloud solutions
- Available in 50 point (ES-50XP) and 198 point (ES-200XP) configurations
